MASTER OF COMPUTER AND SYSTEM SCIENCES
Master's in Computer and Systems Sciences
Stockholm University (2025 – present)
Sweden Stockholm

BACHELOR OF SCIENCE
The BSc (Honours) Business Information Systems
University of Westminster (2019 – 2023)
Uzbekistan Tashkent

EXPERIENCE

FRONTEND ENGINEER
"RealSoft" LLC | January 2022 - August 2025
RealSoft is Uzbekistan's top-3 software production company, delivering 10+ large-scale projects, including national e-government platforms with 20M+ users.

- Contributed as a core frontend developer, built and optimized responsive, user-friendly web applications using Vue.js (2 & 3), Vuex/Pinia, SCSS, Tailwind, Bootstrap, and Material UI
- Developed online-mahalla.uz, a government subsidy platform, creating an interactive map of Uzbekistan, dashboards with real-time statistics, and monitoring tools for citizen applications
- Designed and developed talim-krediti.uz, a student loan portal, handling both UI/UX design in Figma and frontend implementation, achieving compliance with Google SEO performance standards
- Served as a frontend contributor to platon.uz, Realsoft's proprietary low-code platform, creating reusable components, integrating external services (eIMZO login, national citizen database, e-doc signing), and building advanced UI tools (codemirror, table builders, document readers, AI integrations)

- Participated in additional high-impact projects such as [oilakredit.uz,](oilakredit.uz) [hujjat.uz,](hujjat.uz) [realpay.uz,](realpay.uz) [nodavlat-bogcha.uz,](nodavlat-bogcha.uz) [biznes-portal.uz,](biznes-portal.uz) [call24.uz,](call24.uz) [smart-market.uz,](smart-market.uz) and smart-office.uz
- Collaborated closely with designers and backend developers in Agile/Scrum teams, ensuring seamless API integrations and scalable UI architecture
- Mentored and supervised 4+ interns, managing two long-term trainees, setting tasks, and guiding their professional growth. Got official thanking letter for contribution to the development of the company

COMPUTER SCIENCE TEACHER

"Lumos Mind" Private School | June 2021 – January 2022
- Taught grades 1–8 (ages 7–15), covering Scratch, HTML/CSS, JavaScript basics, and MS Office
- Guided students in building games (Flappy Bird, Tic-Tac-Toe, Snake) and simple websites using simple HTML-CSS-JS stack and delivered practical MS Office training (Word diagrams, Excel tables & formulas, PowerPoint presentations) to improve digital literacy
- Prepared lesson plans, graded assignments, and mentored pupils in projects
- Developed patience, leadership, and mentoring skills, earning recognition from parents and school administration
- Tools: Scratch, VS Code, JavaScript basics, HTML/CSS, Microsoft Office Suite, online learning platforms

FRONTEND DEVELOPER

"Kirano" Web Studio | May 2020 – June 2021
- Began as an intern, promoted twice within a year to Frontend Developer with increased responsibilities. Built and delivered 20+ responsive, cross browser websites and landing pages, improving workflow efficiency and client delivery speed.
- Developed corporate websites for [regalstay.uz,](regalstay.uz) [bctdenim.com,](bctdenim.com) and trustagro.uz (integrated into WordPress for product management), using HTML, CSS/SCSS, JavaScript, Bootstrap, Gulp
- Created fast, modern, and mobile-friendly landing pages for multiple local and international businesses ([kale.uz,](kale.uz) [sqbc.uz,](sqbc.uz) [arccon.uz,](arccon.uz) [mbcag.com,](mbcag.com) [altaplast.uz,](altaplast.uz) [krokus.uz,](krokus.uz) [asiaconsult.uz,](asiaconsult.uz) [shatura.uz,](shatura.uz) and others)
- Improved my skills in responsive layouts, bug fixing, cross-browser testing, and collaboration with designers & backend developers and using tools: GitHub, Trello, Figma, VS Code

---
